Access may be denied for any reason at any time, however if access to

information, passwords or facilities is denied, Client understands that MSP or its subcontractors, may be unable to perform their duties adequately. and if such a situation should exist, Client will hold the MSP harmless.

RESPONSIBILITY FOR EQUIPMENT

Client acknowledges that from time to time (a) MSP may identify additional items that need to be purchased by Client, and (b) changes in Client system may be required in order for MSP to meet Client requirements. In connection therewith, Client agrees to work in good faith with MSP to effectuate such purchases or changes, and such changes shall be set forth in a new "REQUESTED SERVICES". If MSP is required to purchase any assets, including computer hardware and/or software, in connection with MSP providing the Services, all such assets will remain the sole property of MSP, except those assets sold by MSP to Client or procured by MSP on Client's behalf shall be the sole property of Client. Client will take such reasonable precautions to ensure the quality, completeness and workmanship of any item or equipment or hardware furnished by Client, and for ensuring that the materials provided to MSP or its subcontractors, do not infringe or violate the rights of any third-party. Unless otherwise specified in the "REQUESTED SERVICES" that it is not the intent, nor does the MSP provide any type of backup of Client data. CLIENT DATA OWNERSHIP AND RESPONSIBILITY

Client shall have sole responsibility for the accuracy, quality, integrity, legality, reliability, appropriateness, and intellectual property ownership or right to use of any data, information or material proprietary submitted by Client to MSP.

INTELLECTUAL PROPERTY

MSP retains all intellectual property rights in any property invented or composed in the course of or incident to the performance of these Terms, as well as any software, materials, or methods created prior to or after conclusion of any work ("Intellectual Property"). Client acquires no right or interest in any such intellectual property, by virtue of these Terms or the work performed under these Terms.

Client may only use and disclose Intellectual Property in accordance with the terms of these Terms and applicable "REQUESTED SERVICES". MSP reserves all rights in and to the Intellectual Property not expressly granted in these Terms. Client may not disassemble or reverse engineer any Intellectual Property or decompile or otherwise attempt to derive any software source code within the Intellectual Property from executable code, except to the extent expressly permitted by applicable law despite this limitation or provide a third-party with the results of any functional evaluation, or benchmarking or performance tests on the Intellectual Property, without MSP's prior written approval. Except as expressly authorized in these Terms or any "REQUESTED SERVICES", Client may not (a) distribute the Intellectual Property to any third-party (whether by rental, lease, sublicense or other transfer), or (b) operate the Intellectual Property in an outsourcing or MSP business to process the data of third parties. Additional usage restrictions may apply to certain third-party files or programs embedded in the Intellectual Property.

LICENSE AGREEMENTS

- A. License. Subject to these Terms, MSP grants Client a perpetual, non-exclusive, non-transferable license to use all programming, documentation, reports, and any other product provided as part of the Services solely for Client own internal use. At all times, all software on the System must be genuine and licensed, and Client agrees to provide MSP with proof of such licensing upon its request. If MSP requires Client to implement certain minimum hardware or software requirements ("Minimum Requirements"), Client agrees to do so as an ongoing requirement of MSP providing its Services to Client.
- B. Software Installation or Replication. If MSP is required to install or replicate Client software as part of the Services, Client will independently verify that all such software is properly licensed. Client's act of providing any software to MSP will be deemed Client's affirmative acknowledgement to MSP that Client have a valid license that permits MSP to perform the Services related thereto. In addition, Client will retain the duty and obligation to monitor Client equipment for the installation of unlicensed software. Customer will indemnify and hold harmless MSP against all damages and expenses it may incur (including reasonable attorney's fees and disbursements) related to Customer providing infringing materials to MSP or any Customer breach of this Section.
- C. Pre-Existing License Agreements. Any software product provided to Client by MSP as a reseller for a third-party, which is licensed to Client under a separate software license agreement with such third-party, will continue to be governed by the third-party license agreement.
- D. EULA. Portions of the Services may require Client to accept the terms of one or more third-party end user license agreements ("EULAs"). If the acceptance of a EULA is required to provide the Services to Client, then Client hereby grants MSP permission to accept the EULA on Client behalf. EULAs may contain service levels, warranties and/or liability limitations that are different than those contained in these Terms. Client agrees to be bound by the terms of such EULAs and will look only to the applicable third-party provider for the enforcement of the terms of such EULAs. If, while providing the Services, MSP is required to comply with a third-party EULA and the third-party EULA is modified or amended, MSP reserves the right to modify or amend any applicable "REQUESTED SERVICES" with Client to ensure its continued compliance with the terms of the third-party EULA. Client agrees to hold harmless and Indemnify MSP against Client violation of any of the terms and conditions included in the subject EULA.

MSP'S EMPLOYEE'S, AGENTS OR SUBCONTRACTORS

Client acknowledges that MSP has incurred substantial recruitment, screening, training, and administrative expenses with respect to its agents, including its employees, vendors and independent subcontractors. To the extent permitted by law from the Effective Date of the last SOW and up to one (1) calendar year after the date of termination of any "REQUESTED SERVICES", Client shall not hire or contract directly or indirectly with any of the MSP's employees, agents or subcontractors who have communicated with and/or worked on any Service for Client. Client and MSP mutually acknowledge and agree that it would be impractical and extremely difficult to ascertain the amount of monetary damages that would be caused by a breach by Client of this provision. Therefore, Client and MSP mutually agree that in the event of a breach by Client in any way of this provision, Client shall pay to MSP as liquidated damages, an amount equal to One Hundred Fifty Thousand Dollars (\$150,000.00). this amount is an effort by both parties to properly and reasonably assess the damages that MSP would suffer as a direct result of a breach by Client, taking into account the following facts and circumstances: (a) an average employee working for MSP will generate significant net revenue for the MSP and remain employed by the MSP for an extended period of time; (b) MSP will lose significant revenue and incur significant costs in connection with attempting to replace such employee; (c) there is no guarantee that such employee can be replaced; and (d) accurately assessing the value of such employee to the MSP upon such breach is virtually impossible. In light of these circumstances, Client and MSP mutually agree that this liquidated damages provision represents reasonable compensation to MSP for the losses that it would incur due to any such breach. Client and MSP further acknowledge and agree that nothing in this paragraph shall limit MSP's rights to obtain injunctive relief or any other damages including, but not limited to punitive, consequential, special, or any other damages, as may be appropriate in connection with Client breach of this section.

WARRANTY

MSP warrants that it or its subcontractors, will perform the services substantially in accordance with the specifications set forth whether under these Terms, "REQUESTED SERVICES" or otherwise in connection with any of them. For any breach of the foregoing warranty, MSP or its contracted subcontractors, will exercise commercially reasonable efforts to re-perform any non-conforming services that were performed within the fifteen (15) business day period immediately preceding the date of Client's written notice to MSP specifying in reasonable detail such non-conformance. If MSP concludes that conformance is impracticable, then MSP will refund all fees paid by Client to MSP hereunder, if any, allocable to such nonconforming Services within thirty (30) business day period post mutual agreement of refund.

Notwithstanding any provision to the contrary in these Terms, any warranty offered and provided directly by MSP product shall be deemed null and void if the applicable product is (i) altered, modified or repaired by persons other than MSP, including, without limitation, the installation of any attachments, features, or devices not supplied or approved by MSP (ii) misused, abused, or not operated in accordance with the specifications of MSP or the applicable manufacturer or creator of the hardware or product, or, (iii) subjected to improper site preparation or maintenance by persons other than MSP or persons approved or designated by MSP.

Notwithstanding the above, MSP does not warrant its products or services beyond a reasonable standard or skill consistent with commercial industry standards. MSP does not guarantee or promise any cost savings, profits, or returns on investment, delay in delivery or performance, including those delays caused by supply-chain delays or disruptions.

SOFTWARE HARDWARE & SECURITY

Client understands and agrees that data loss or network failures may occur, whether or not foreseeable. Therefore, Client must maintain proper security for Client System including but not limited to software and hardware updates that are made available by the manufacturer. Client will adhere to software and hardware updates and maintain specific security standards, policies, procedures set forth by the NIST Cybersecurity Framework available at <https://www.nist.gov/cyberframework> or, alternatively, the Center for internet Security CIS Center for Internet Security ([cisecurity.org](https://www.cisecurity.org)).

CLIENT CYBER SECURITY

It is understood that within the Services provided, it is not the intent, nor does the MSP provide any type of internet security monitoring, cyber security monitoring, cyber terrorism monitoring, or other cyber threats for Client unless otherwise specified in the "REQUESTED SERVICES". REGULATORY COMPLIANCE

Any software or service provided by MSP is not intended to bring Client into full regulatory compliance with any rule, regulation, national standard or requirement. The software, service, or solutions may aid Client's efforts to achieve regulatory compliance, however, MSP does not provide comprehensive compliance solutions.

EXTRAORDINARY EVENTS

In no event shall MSP or its subcontractors, whether under these Terms, "REQUESTED SERVICES" or subsequent SOW, other work order or otherwise in connection with any of them, be liable in contract, tort, third-party liability, breach of statutory duty or otherwise, in respect of any direct, indirect or consequential losses or expenses, including without limitation loss of anticipated profits, company shut-down, third-party loss or injury, any loss because of data breach, any loss of personally identifiable or protected information, goodwill, use, market reputation, business receipts or contracts or commercial opportunities, whether or not foreseeable, if such loss was the result of a cyberattack or any other event not contemplated by these Terms.
